Big Rich and Ya Boy present...

## *Guns and Roses, The EP*

San Francisco, February 1, 2010: It's been a long time coming, but Big Rich and Ya Boy are back together. It's Going on 5 years since they created the hit single *Meet the Dealers*, which was featured on Big Rich's first solo album *Block Tested Hood Approved*. Big Rich and Ya Boy both got their start in the music industry on Done Deal Entertainment. In 2004, the record label split up, but these two artists upheld their friendship, knowing that one day their paths would cross again; which brings us to today.

3 Story Muzik and Black Card Music proudly bring you, "Guns and Roses". This project consists of 8 brand new songs by Big Rich and Ya Boy and will be available exclusively on iTunes. The title "Guns and Roses" was not only inspired by the famous rock band, but by BR and YB's knack for catering to both their urban and mainstream fans.

Perfect chemistry and like-minded business men, these two saw their potential with the support of their fans to take off on this venture. With brilliant productions by D'animals, Rob E, and Pete G, this little album has big sounds. All features on the album are of their own artists. There's no need to outsource when the artists of 3 Story Muzik (Big Rich's Label) and Black Card Music (Ya Boy's Label) are already buzzing in the streets of California and worldwide.

This album will only be available for purchase online on iTunes, February 16, 2010.
